

I'm writting to beg of you not to let K-Love be displaced by an LPFM broadcaster....or us loose it here in central Kansas. It is the only Christian radio that comes in clear here...and is such a blessing to so many. The people I work with, and I listen to it all day long...people who come in our office recognize it right away. My children know the words to Christian music, because of K-Love...you know how much children hate ads and want all music..all the time, or they flip. No flipping with K-Love...and what a witness for our children and the future of our country. Hence, my writting is why I believe that the service provided by K-Love is so important to our community here as so many other areas around the US. It feeds us "Our Daily Bread"...for our spirits and souls. Please consider all of us people out here...little ears are listening. Thank you. Sincerely, in Christ's Love, Debbie Urban
